KADEŞ 2015

MIDDLE EAST NEED SOLIDARITY

The Middle East, host of the first written peace agreement Kadesh, is the place where civilization, life and fruitfulness emerged.

Unfortunately, these place are the center of wars of religion, bigotry, hatred, intolerance and great human tragedies. The Middle East, taught the peace to the world when Hittites and Egyptians come side by side hundreds of years ago, longs the peace, nowadays.

“Kadeş 2015” is a step towards remembering the culture of living together and peacefully, underlining the possibility and probability of the peace and drawing the caricature of it.

We wish with all our hearts that the power of art and humor will bring a new “Kadeş” to the Middle East..

ON JUNE SCIENCE ART MEDIA ASSEMBLY

United June Movement (JUNE) Science, Art, Press Assembly has been founded in April 2015 with the "Free Science, Uncensorless Art, Truthful Press" motto. Our assembly has launched to enable United June Movement, that declared its establishment in December 2014 with the National Assembly and came to the fore after the "School Boycott for Secular and Scientific Education", to be active in the science, art and press fields. There are 65 people from science, art and press fields in our assembly that aims to bring together the enlightened people from these fields. Our assembly's first activity of large-scale will be "Kadeş 2015", a caricature exhibition that describes the anti-war feelings in Turkey and the Middle East.
